## Objective

---

**Aspiring Software Engineer** with strong skills in **Java, Python, SQL, and Data Structures**, seeking an SE role to build scalable software solutions while continuously learning and contributing to enterprise applications.

## Education

### G. Pullaiah College of Engineering and Technology.

- B. Tech in CSE(Artificial Intelligence) | **2022 - 2026**
- **CGPA : 8.5**

### Sri Chaitanya Junior College.

- Board of Intermediate Education, Andhra Pradesh | **2020-2022**
- Marks : 936

### Zilla Parishad High School

- Board of Secondary Education, Andhra Pradesh | **2019-2020**
- **Marks:586**

## Technical Skills

- 
- **Programming Languages:** Java, Python
  - **Object-Oriented Concepts:** OOPs principles, Exception Handling, Collections Framework
  - **Web Technologies:** HTML, CSS, JavaScript (Basics)
  - **Databases:** SQL, MySQL
  - **Tools & IDEs:** Git, GitHub, VS Code, Eclipse, Jupyter Notebook.

## Certifications

- 
- ServiceNow Certified System Administrator-ServiceNow
  - Java-CodeTantra
  - Fundamentals of deep learning-NVIDIA

## Key Strengths

- 
- Strong problem-solving and analytical skills
  - Ability to write clean, testable, and efficient code
  - Quick learner with interest in new technologies
  - Team player with good communication skills.

## Projects

### 1)Rice Type Detection-Machine Learning & CNN

Developed a classification model that identifies the type of rice grain from an input image using CNN and ML techniques. Processed images, extracted features, and trained a model to categorize rice types accurately.

### 2)ATS Resume-Screening (Python)

- Built a basic resume screening system using Python to extract skills and match them with job descriptions
- Applied keyword matching techniques to rank resumes based on relevance

- Demonstrated understanding of automated resume filtering systems

**Skills: Python, Text Processing, Keyword Matching, ATS Concepts**

### **Languages Known**

---

- English
- Telugu
